

IGNITE DIGITAL DESIGN & PHOTOGRAPHY

DECEMBER!

With only a few weeks in December, the students made the most of their time! They had a few choice boards, they shot force perspective, they went on shoots outside the building and 3 were featured in the Newspaper!

Force Perspective

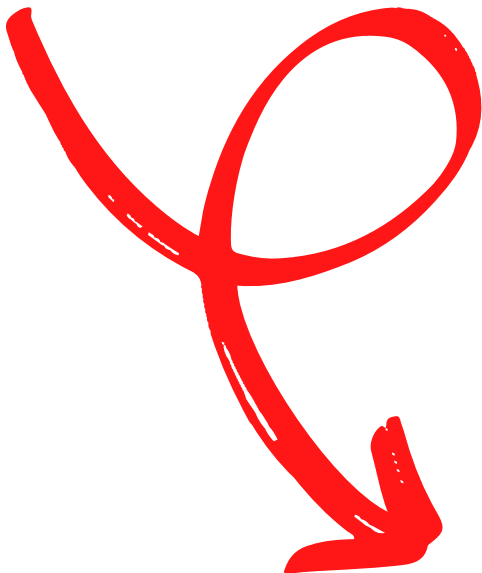

Forced perspective is a technique that employs optical illusion to make an object appear farther away, closer, larger or smaller than it actually is. It manipulates human visual perception through the use of scaled objects and the correlation between them and the vantage point of the spectator or camera.

Focused on the future

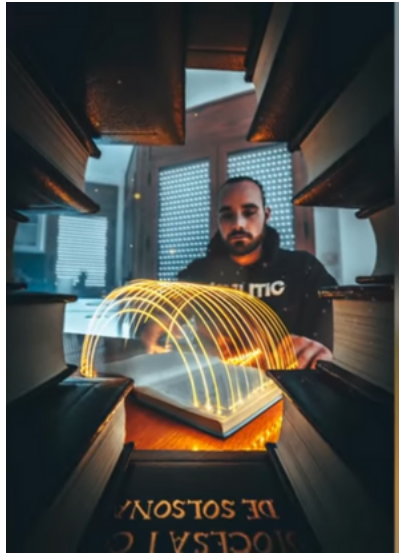

Bentonville High students Jackson Springmann (from left) and Emily Graham take pictures of Meredith Mellor for a class assignment Monday with the giant chess pieces across from the 21c Museum Hotel in Bentonville. They're part of the Ignite Professional Studies program, a program Bentonville schools developed to provide students with relevant learning experiences in collaboration with regional businesses, nonprofit groups and industry professionals. Students choose one of seven career paths where they work on projects and participate in internships with area businesses. Go to nwaonline.com/201208Daily/ for today's photo gallery. JORDI KOALITIC

RECREATION

JORDI KOALITIC

RECREATION

Jordi.Koalitic is a creative photography project born from the creative mind of the brothers Jordi and Arnau Puig, two content creators who have created their own style and way of understanding photography reaching millions of people around the world.

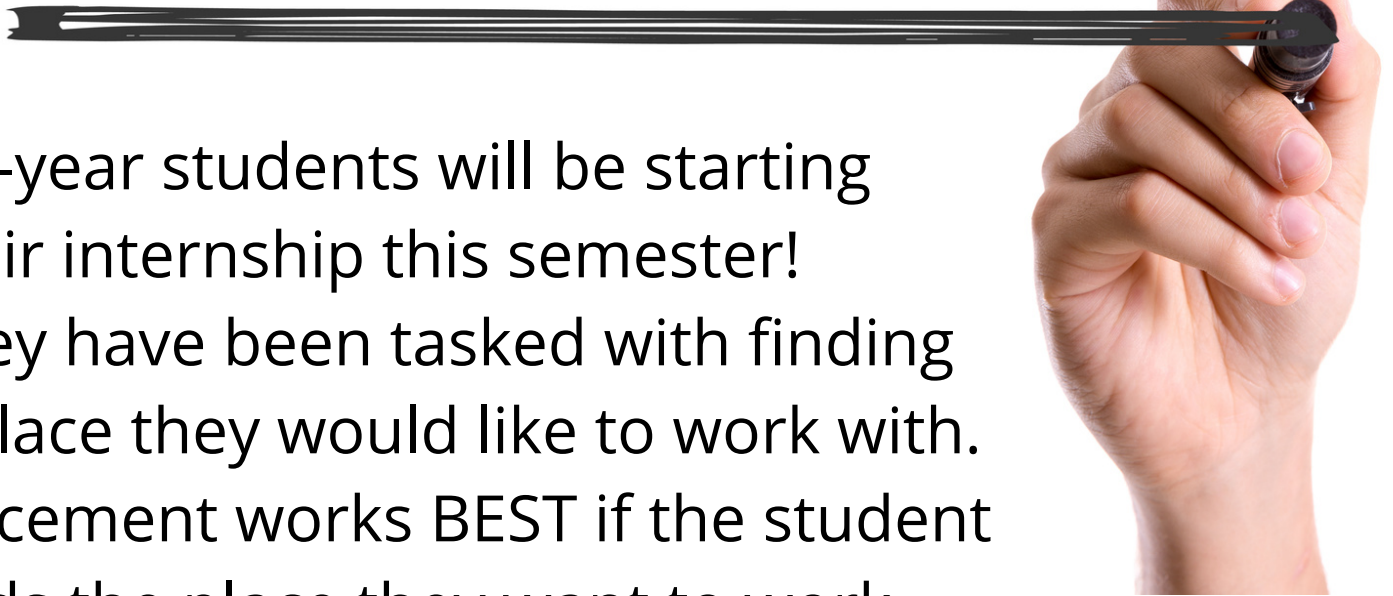

Big Future Days

College Board is hosting virtual events for high school students to connect directly with college admissions representatives and take action on the most important steps for college.

INTERNSHIP

1st-year students will be starting their internship this semester! They have been tasked with finding a place they would like to work with. Placement works BEST if the student finds the place they want to work.

*Monday and Thursday are dedicated to NWACC
Tuesday, Wednesday, and Fridays are INTERNSHIPS!*

At this time students are allowed to work at an internship as long as they follow COVID protocols: Social Distancing, Masks, 6' distance. Some intern opportunities are also available for students to work out of the Ignite building.

Internships for 2nd Year Students

2nd-year Digital Design and Photography students are working on an internship for 3-4 days a week and are in class the other days completing their NWACC Graphics 1 class.

Internships are always hard to come by so if are in need of an intern to help you complete the "**10th thing on your creative to-do list**" let me know!

We are always interested in working with local businesses, nonprofits and volunteer organizations.
