

Color Theory Spinners

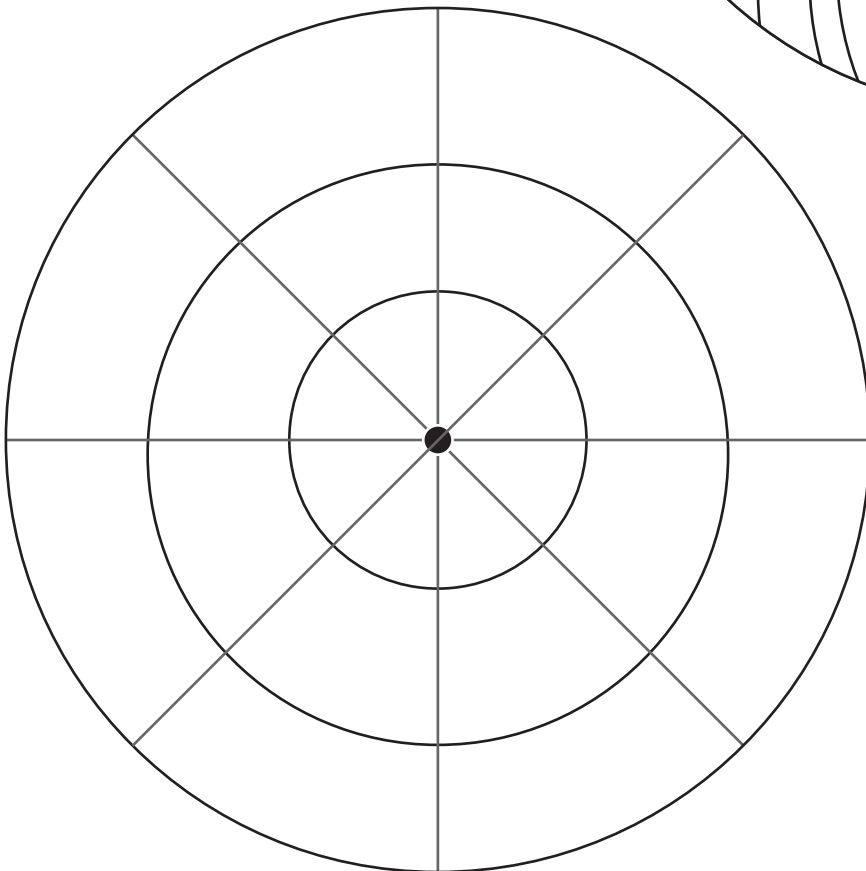

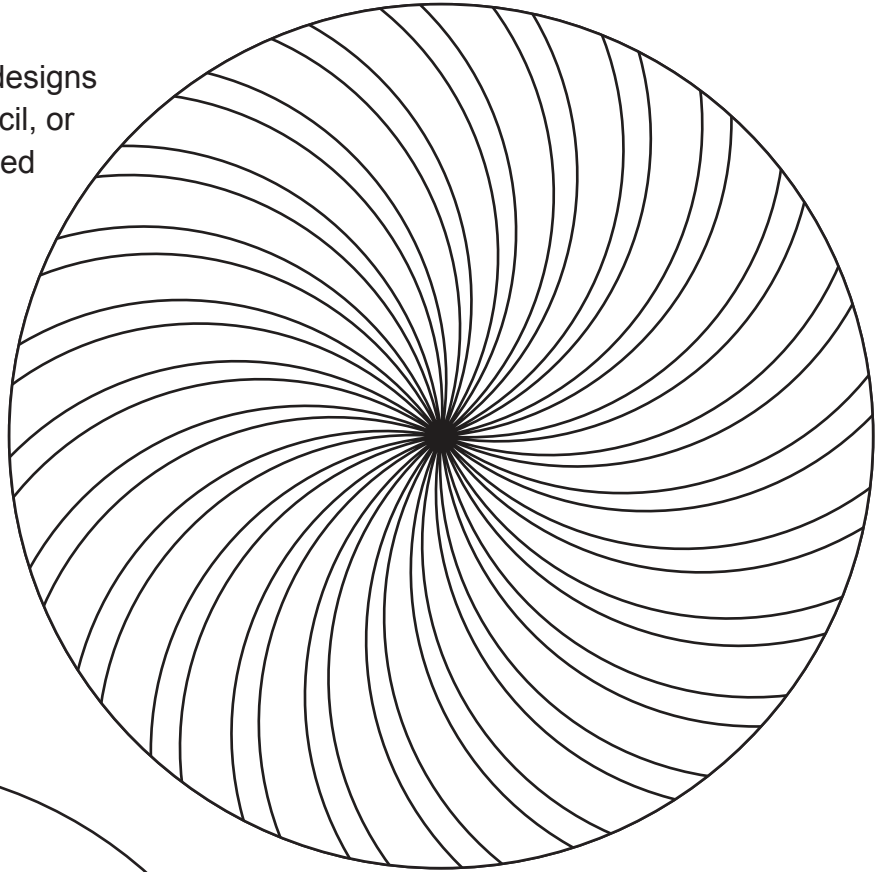

Instructions

To make a spinner color and glue these designs to cardboard, cut, and use a skewer, pencil, or even a penny puncturing the center to used to twist the spinner.

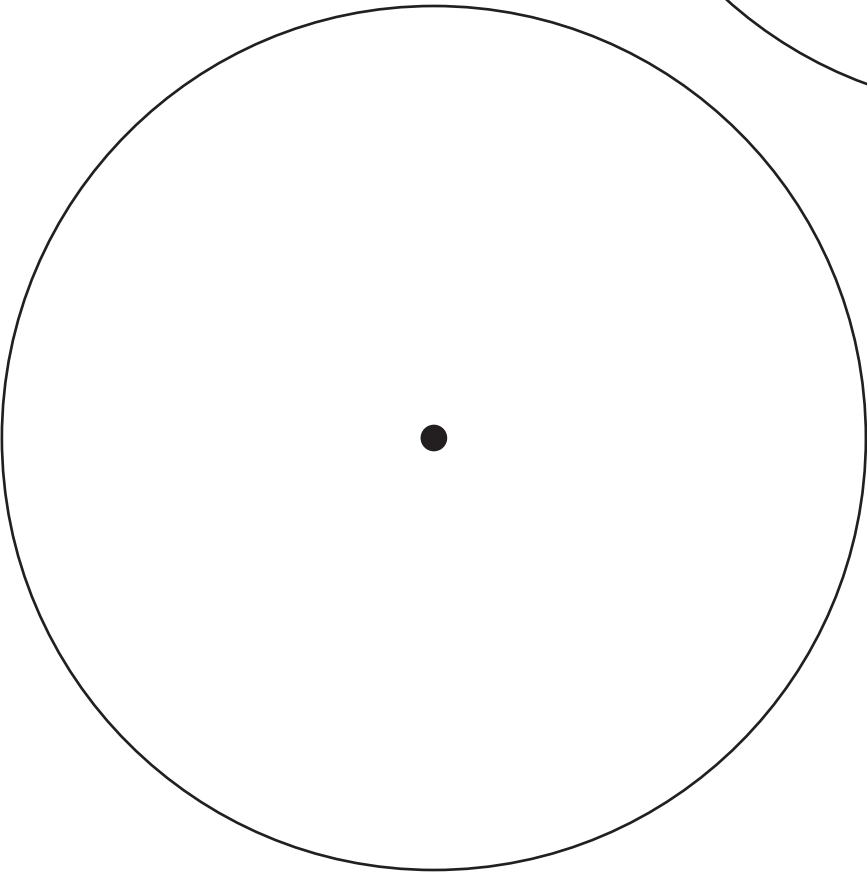

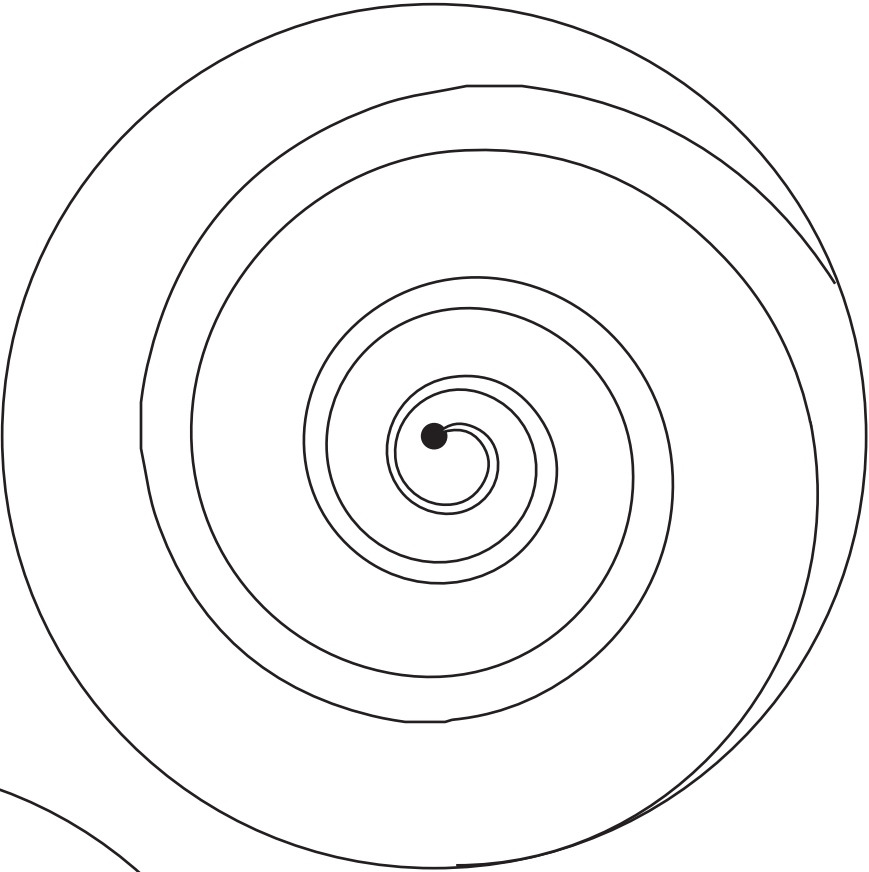

Color the designs and observe what happens to the colors when in motion.

What happens if I...

- use two primary colors within a circle?
- use two analogous colors?
- use two complimentary colors?
- use black and white?
- use all the colors (red, orange, yellow, green, blue and violet)?
